CDD – NIPAS & PAMB Management System manuscript:

Welcome to the new DENR PAMB and NIPAS management database. This will serve as your guide on how to use the website properly.

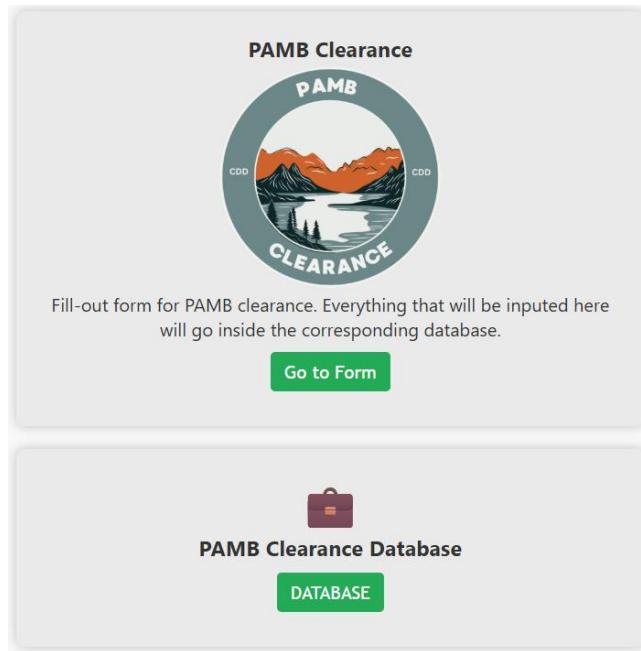

Main Page:

In here you can see all of the functions that this website offers. It can tell you the Time & Date, Mission & Vision, About page, Calendar and the Database and Input form for NIPAS and PAMB. The calendar allows users to view and manage important dates, events, and deadlines. Users can click on a date to see event details, add or edit entries, and receive reminders for upcoming activities. Lastly, when clicked "how to" button, this displays a helpful user guide explaining how to navigate and use the website. The guide typically includes step-by-step instructions, illustrations, and explanations of each feature to assist first-time or returning users.

The screenshot shows the homepage of the CDD - NIPAS & PAMB Management System. At the top, there's a green header bar with the system name, a timestamp (01:42:09 PM, Wednesday, May 26, 2021), and navigation links for 'How To' and 'Logout'. Below the header is a decorative banner featuring a stylized tree logo and hexagonal patterns, with the text 'DENR - CALABARZON' and 'CDD PAMBCS' prominently displayed. The main content area contains four circular buttons: 'PAMB Clearance' (with a mountain icon), 'NIPAS Certification' (with a mountain icon), 'PAMB Clearance Database' (with a briefcase icon), and 'NIPAS Database' (with a briefcase icon). Below these are two large rectangular boxes: one for 'Calendar' showing a grid for May 2025 with specific dates highlighted, and another for 'About' containing sections on Company, Mission, and Vision. A large watermark reading 'Proposed' is visible diagonally across the page.

PAMB:

Here we can see 2 buttons, PAMB and Database. By clicking PAMB, you will be redirected to another page that enables you to input information to put in the database.

After filling-up the form just click submit and the page will refresh and you will see the ID change to indicate that you have successfully added new data for the database.

To check the database, click the "back" button then click the "Database" button.

A screenshot of a web application titled "PAMB Clearance Form". The form includes fields for "ID: 12", "Created By: OW-JT", "Clearance No.", "Name Of PA", "Proponent", "Purpose", "Resolution No.", "Resolution Title", and "PAMB Meeting Date". There is also a large text area for notes or comments. A "Back" button is visible at the top left of the form area.

In here you can see the search bar, Download (PDF or XLSX), Delete, Update, and Download PDF button.

The screenshot shows a table titled "PAMB Clearance Records" with the following data:

ID	Proponent	Purpose	Resolution No.	Resolution Title	PAMB Meeting Date	Description	Terms & Conditions	Restrictions	Date Released	Actions
006	Mildred L. Visaya of Skymount Resort	Obtainment of the Corresponding Permits from the Concerned Agencies	PAMB Resolution No. 26, Series of 2024	Kapasiyahan ng Protected Area Management Board (PAMB-PP) na Pinahihintulutan na Mabigyang...	3rd Regular PAMB-PP 1636 Meeting held on August 09, 2024	Skymount Resort is a 10,000-square-meter development located within Matikas Farm Compound,...	1. Environmental Impact Assessment (EIA) or Environmental Compliance Certificate (ECC...)	This PAMB Clearance shall be valid for a period of one (1) year from the date of its issua...	june 5 2025...	<button>Delete</button> <button>Update</button> <button>Download PDF</button>

○ Search Bar

The search bar allows you to search Id, Clearance Number, Proponent, Resolution Title, Resolution Number, PAMB Meeting Date and Date Released of a specific data that you want to see. Another feature of the search bar is its filter function where you can filter out the specific attribute that you want to search. For example, if you want to search laguna specifically on "location" you can just click the location on the filter so that it will only show laguna on the location category.

○ Download All (PDF or XLSX)

By clicking this, you will be able to download all the data from this database in a PDF and XLSX format. Plus, with the filter function you can filter out which data you want to be downloaded in bulk.

○ Update

This will allow you to edit each information inside the database. This will help you whenever you enter the wrong data or things change in the future.

○ Delete

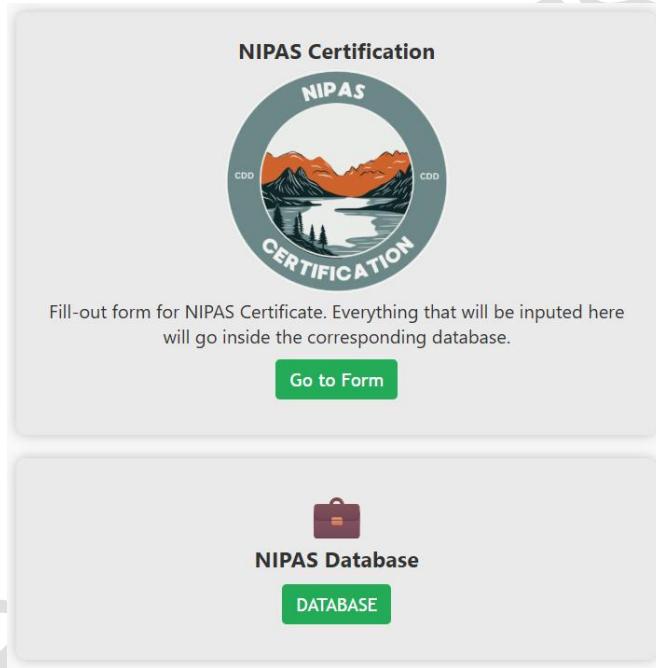

This will allow you to delete specific row inside the database.

Download PDF

This will download the specific row of data inside the database and turning it into the PAMB Clearance format. *Note: whenever you want change the format inside the pdf, you can convert it into word by using PDF to Word websites.

NIPAS:

This is the same as the PAMB where we have 2 buttons, the NIPAS and Database. They serve the same way at the previous buttons but now it leads you to the NIPAS fill-up form and the NIPAS database.

After filling-up the form just click submit and the page will refresh and you will see the ID change to indicate that you have successfully added new data for the database.

to check the database, click the "back" button then click the "Database" button.
